Peace. Social Justice. Human Rights.

The Disarm Education Fund promotes peace and social justice by making sure the most powerful weapons of all reach those most in need – medicine, education, and human rights.

Get involved in our life-saving efforts to reach communities devastated by brutal foreign policies. With your help, Disarm can get critical medicine and medical supplies to families on the brink of survival.

The preservation of peace and democracy begins with people like you. Take a moment to contact us, and we'll let you know how your involvement can make all the difference.
